Daniel Fisher
Tony Litke
Mark Raleigh
Bruce Smiley

First Call for Papers 2022 Meeting of the Western Snow Conference

Members and Friends of the Western Snow Conference:

Please join us on April 18–21, 2022 for the 89th annual meeting of the Western Snow Conference, to be held at the University of Utah, Salt Lake City, UT. After two arduous years of dealing with the Coronavirus pandemic, I'm sure we are all eager to return to a face-to-face meeting at an excellent venue.

You are invited to submit an abstract of 150 – 300 words for either oral or poster presentation by January 31, 2022. Submit abstracts by filling out the online submission form at:

<https://forms.gle/kR8sfDa97Lw3dBk9A>

The theme for the 2022 Western Snow Conference is **"Drought, Fire, and Precipitation Extremes: Operational Challenges for Snow Water Resources"** however, all snow-related research in the context of measurements, modeling, and water supply are welcome. Keeping in line with the conference theme, related papers will be given priority.

The South Continental Committee will compile a full agenda of oral and poster papers. In addition, a Monday short course is being planned as well as a Thursday technical tour of operations and research sites in Little Cottonwood Canyon, UT.

Please share this Call for Papers and Conference Announcement with colleagues, students and friends who may be interested.

Details of this conference are still being finalized. Please check our website for updated information at www.westernsnowconference.org or email westernsnowconference@gmail.com or the chairs listed below if you have questions.

We hope you will join us for another great meeting of the Western Snow Conference.

Think Snow!
