**Call for Papers
2024 Meeting of the
Western Snow Conference
"Watersheds to Estuaries"**

Dear Members and Friends of the Western Snow Conference:

Please join us on April 22-25, 2024, for the 91st annual meeting of the Western Snow Conference, to be held in Corvallis, Oregon on the campus of Oregon State University. In addition to the in-person conference meeting, a virtual attendance option is being planned to allow for broader participation.

You are invited to submit an abstract of 150 – 300 words for either oral or poster presentation by February 1, 2024. The theme for the Conference is "*Watersheds to Estuaries*", but all snow-related research in the context of measurements, modeling, and water supply are welcome. In order to encourage participation in the Conference, all presenters are required to attend in person. Submit abstracts by filling out the online submission form at:

<https://forms.gle/Bk6YTCYwAzqf7ouK6>

The North Pacific Committee will compile a full agenda of oral and poster papers. In addition, a Monday short course is being planned as well as a Thursday technical tour.

Please share this Call for Papers and Conference Announcement with colleagues, students and friends who may be interested.

Details of this conference are still being finalized. Please check our website for updated information at www.westernsnowconference.org or email westernsnowconference@gmail.com or the chairs listed below if you have questions.

We hope you will join us for another great meeting of the Western Snow Conference.
